Micro Loan Project

A small loan like this has the ability to change someone's future. There are many that are praying for that open door, that one opportunity to prove that they can succeed. By contributing to the Micro loan program you can help be that change and that open door in someone's life. You have no idea what God can do with that small seed that you sow into a person's life.

Over the years we have developed many programs that aim to make a lasting impact on a person's life and give them a better future instead of filling a belly for one day. The Micro Loan project is one of these programs. This program gives the start-up help to someone who has an idea and the drive to make it a success, but lacks the funds to get started. These small businesses will provide a livelihood for a family and better future their children and their community.

- Those who will be intimately involved in rescuing the young girls, getting them to safety, and caring for them every step of the way.
- The Lord's guidance as we reach out. That we would be led to the right children. That we would be directed to the right situations and would be able to save many young lives.
